TRIAL

Assessment of Circulating Tumor Cells and microRNAs in Patients With Metastatic Non-cutaneous Melanoma

NCT ID: NCT06863870 Phase: N/A Sponsor: IRCCS Azienda Ospedaliero-Universitaria di Bologna Status: Active Not Recruiting

SUMMARY

the study aims to implement new approaches for the identification of circulating tumor cells and circulating microRNAs, which aim to silence the expression of genes and thus prevent the production of proteins in patients with advanced melanoma (uval, mucosal, of unknown origin). It also aims to verify whether their expression can be related to the prognosis of the disease and the response to treatments.

KEY ELIGIBILITY CRITERIA

- * Diagnosis of UM, MM or MUP
- * Diagnosis of metastatic disease
- * Age e 18 years, at the time of the tissue collection
- * Personal medical history of concomitant other cancer

Total sites: 1 | 0 currently recruiting
